

Evo Literature Holder - ELH-FL Series

1. Connect the bottom uprights to the bases, using the longer screws provided. The lower uprights have a joiner plate at the top.
2. Place the top uprights over the joiner of the bottom uprights, then fasten the top upright to the joiner using one of the shorter screws provided.
3. Attach the crossbars to the uprights, using the longer screws provided. Be sure to install all the crossbars with the shelf holes facing the same direction.
4. Connect the second upright assembly to the crossbars using the longer screws provided.
5. Place the shelves over the crossbars and fasten the shelves to the crossbars using the shorter screws provided.
