FrameGraphix Magnetic Signware Stand™ - TLS Series

1. Screw the frame onto the upright.
2. *For -RD and -SQ units*: Attach the upright to the base using the spring button connection. *For -MM units*: Attach magnetic graphic to steel surface.
3. *For -MR units*: Attach magnetic surface to metal surface, then attach metal graphic to magnetic surface.
4. *For the telescopic models -TP*: Loosen the clutch by turning the clutch counter-clockwise, then raise the upright to the desired height. Turn the clutch clockwise to lock the height position.
