

FrameGraphix Magnetic Wall Frame™ - TLW Series

1. Mount the wall bracket to the wall using the appropriate screws and anchors (not included).
2. The frame has guide holes located on the underside of the top side of the frame. Hang frame by engaging the guide screws of the wall bracket into the guide holes of the frame.
3. If using Magnetic Media, install the magnetic graphic (not included) directly to the metal plate. If using Magnetic Receptive Media, install the magnetic receptive graphic (not included) over the preinstalled double sided magnet (included).
