

# SEG Circle™

1. To connect the two halves of the frame together, slide the joiner plates that pre-installed on one half of the frame, into the matching channel of the other frame half. Tighten the hex screws using the hex key provided.
2. Mount the frame to using screws or anchors appropriate for your wall. *26" and 36" units have 2 brackets, 48" unit has 3 brackets.*
3. Insert two opposite edges of the graphic into the graphic channel of the frame assembly, at the 'A' (12 o'clock) and 'B' (6 o'clock) positions. Then repeat for the two other opposite edges of the graphic, at the 'C' (3 o'clock) and 'D' (9 o'clock) positions.
4. After all 4 edges are pressed in, press the silicone into the frame channel at the mid-points between the four opposite edges.
5. Press silicone into frame evenly between the corners and midpoints.
6. To remove the graphic from the frame, simply pull up on the pull tag.
